february Highlights

2

Over a single generation, the Web and digital media have remade nearly every aspect of modern culture, transforming the way we work, learn and connect in ways that we're only beginning to understand. For *Frontline* "Digital Nation" producer Rachel Dretzin ("Growing Up Online") teams up with one of the leading thinkers of the digital age, Douglas Rushkoff ("The Persuaders," "Merchants of Cool"), to continue her exploration of life on the virtual frontier. **Tuesday, Feb. 2, at 8 p.m.**

9

Nova "Extreme Cave Diving" follows the charismatic Dr. Kenny Broad as he dives into blue holes — underwater caves that formed during the last ice age when sea level was nearly 400 feet below what it is today. They are Earth's least explored and perhaps most dangerous frontiers. **Tuesday, Feb. 9, at 7 p.m.**

10

What made America? What makes us? These two questions are at the heart of *Faces of America With Henry Louis Gates Jr.* Looking beyond the black experience to the wider immigrant experience, Professor Gates unravels the American tapestry, following the threads of his guests' lives back to their earliest origins around the globe. **Wednesdays, Feb. 10, 17 and 24, at 7 p.m. The fourth part will air March 3 at 7 p.m.**

11

Hosted President and Mrs. Obama in the East Room of the White House, *In Performance at the White House* features popular musicians performing contemporary arrangements of music that galvanized the U.S. civil rights movement of the late 1950s and 1960s. **Thursday, Feb. 11, at 8 p.m.**

14

Each month, KLRU chooses a program for your family to enjoy together. This month's Family Choice program is *History Detectives* on **Sunday, Feb. 14, at 5 p.m.** America's top gumshoes prove once again that an object found in an attic or backyard might be anything but ordinary. This episode features host Tukufu Zuberi who sets out to examine an inner-city environment that helped lay the foundation for a cultural revolution in "The Birth of Hip Hop."

Over two tumultuous decades, South Africa has finally arrived on its own bumpy road to democracy. With the 2009 presidential election looming ahead as a historical turning point while the film was made, *Independent Lens* "Behind the Rainbow" is a previously untold account of the country's political problems, struggles and realities. **Tuesday, Feb. 23, at 9 p.m.**

25

Join KLRU and United Way Capital Area for a special film screening and discussion on financial issues on Thursday, Feb. 25, from 6 to 8:30 p.m. at Alamo Drafthouse South, 1120 S. Lamar. We'll be screening a film focussing on economic issues followed by a panel of experts talking about the local impact. More details are online at klru.org

It's a familiar but mysterious creature in woods and neighborhoods all across America. Its infamous weapon is one of the most awful scents in all of nature. Now, intrepid researchers and cameramen track skunks day and night across California, New Mexico, Oklahoma, Ohio, even Martha's Vineyard, uncovering how they hunt, forage, mate and raise amazingly cute baby skunks on *Nature*. **Sunday, Feb. 28, at 7 p.m.**
